

ExoAnklet™ **NEW**

Effective foot compression that easily fits in a shoe.

ExoAnklet™ is a compression anklet that provides focused therapeutic compression on the foot and ankle for the management of lymphedema and edema. This anklet is designed to provide comfortable and effective therapy, while easily fitting into your normal footwear.

- 1 Provides focused therapeutic 18–26 mmHg compression
- 2 Works well on its own, or in combination with other compression garments
- 3 Easily allows for normal footwear with its low-profile design
- 4 Soft, comfortable design, particularly over the toes and heel

ExoAnklet™ compression anklet
